## Comments

General comments applicable to this Module 1 Draft UDC:

**Content.** This draft is a combination of new content, revised current regulations, and/or carried-forward current content. Concepts and standards from the current Title 16 and Title 17 have been updated, revised, and relocated to create the new Pueblo County UDC. Throughout the draft there are footnotes that describe the source section, significant changes, or commentary for many of the provisions that originated in the current Land Development Code. At this stage of the project, however, the process of creating the new UDC is focused on new drafting and improvements, not tracking the location of edits.

**Cross-reference hyperlinks.** Where cross-references are provided in this draft, they are a hyperlink to the section referenced. To go to the section in the cross reference, hover over the reference and then press Control + Click (left mouse). To go back to the original location, click Alt + Left Arrow.

**Cross-reference updates.** A reference to a section or other provision reads "Section <> [current Code reference]" means that the cross-reference to that specific section or provision will be inserted once that part of the UDC has been drafted.

For example, a reference in this Module to the Development Standards will be provided in the Consolidated Draft once those regulations have been drafted in Module 2.

Because this is the first Module, this document contains numerous references to future Modules or drafts of the UDC.

**Future Modules include:**

Module 2: Development Standards

Module 3: Administration and Procedures

The entire UDC will be brought together, and all cross-references provided, in the Consolidated Draft.

## **Chapter 17.01 General Provisions**

[To be drafted in Module 3: Administration and Procedures.]

## Chapter 17.02 Zone Districts

### Comment

**Generally.** This chapter includes the standards for the zone districts in Pueblo County. As recommended in the Code Assessment, the lineup of zone districts was revised to 1) consolidate low-use districts into higher-use districts and expand development options; 2) create new districts to more fully implement the Future Land Use Plan; and 3) establish an updated set of district names that are clear and descriptive of the intended development character to help orient UDC users.

**District organization.** Each base zone district includes a purpose statement, a table indicating what minimum and maximum dimensional standards apply to lots and buildings within that district, and an illustration of how those dimensional standards are applied to buildings and lots and demonstrating the general character and context of that district in terms of bulk and layout.

## 17.02.010 Zone Districts Overview

"Mobile Home" is much different than "Manufactured Home". It remains critically important to have a zone specific to either "Mobile Home Subdivision" or "Mobile Home Park" otherwise known as "trailer park". The difference between R-7 and R-8 are a matter of ownership of lots within the park. Opinions differ as to which is best. Most importantly, "Mobile Homes" (Trailers) should have a specific zone and NOT be allowed in the same zone as any other residential zone.

There is a significant difference between "Light" and "Heavy" Industrial. (A steel mill versus a cabinet shop). The neighbors of areas that have historically been recognized as I-2 "Light Industrial" should continue to be protected from a "steel mill" or such.

**(b) Comprehensive Plan Consistency**

Table 17.02.2 identifies which zoning district(s) appropriately implement the Future Land Use Plan in the Pueblo Regional Comprehensive Plan.

- (1) All approvals granted under this UDC shall be consistent with the County’s comprehensive plan and adopted land use and sub area plans.
- (2) All rezonings and future land use map amendments shall ensure consistency between the zone district and the applicable land use category as identified in Table 17.02.2.

## 17.02.020 Chapter Organization

---

### (a) Base Zone Districts<sup>5</sup>

A base zone district establishes minimum and maximum building height, setbacks, lot coverage, and other dimensional standards to support the purpose and general characteristics of the district. The Pueblo County base zone districts are separated into four groups: Agricultural (Section 17.02.050), Residential (Section 17.02.060), Mixed-Use (Section 17.02.070), and Commercial and Industrial (Section 17.02.080). Each group contains multiple zone districts with relatively similar allowed uses and development standards.

The illustration(s) provided for the base zone districts depict the requirements for the zone district. Illustrations are not regulatory and do not depict specific locations or buildings and do not necessarily reflect all standards that may apply to a particular development.

### (b) Special Purpose Districts

Special purpose districts are separate base zone districts that identify public lands and community facilities under the County's jurisdiction. Section 17.02.090 identifies the two types of special purpose districts available in the County—Public Lands and Community Facilities.

### (c) Overlay Districts

Overlay zone districts are applied over one or more underlying zone districts to alter the base district regulations or apply area-specific standards. Section 17.02.100 identifies the overlay zone districts and sets forth each district's purpose and the standards that modify those of underlying districts.

If the standards for an overlay district expressly conflict with those for an underlying base zone district, special purpose district, or another applicable overlay district, the more restrictive standards as determined by the Director shall apply.

<sup>5</sup> New.

## 17.02.030 Zone District Map<sup>6</sup>

---

### (a) Application

The written provisions of this UDC shall apply to the applicable zone districts as shown on the Zone District Map.

### (b) Incorporation of Zone District Map

The location and boundaries of the zone districts established by this chapter are shown on the County "Zone District Map," which, together with all data shown on the map and all amendments to the map, is incorporated into this UDC by reference. Changes in zone districts shall be made only upon amendment to this UDC; and all changes shall be promptly entered on the Zone District Map, with an entry on the map identifying the amending ordinance; or a revised or supplementary Zone District Map shall be drawn up, showing the changes. A physical copy of the official Zone District Map shall be located in the County offices. An electronic version of the Zone District Map may be displayed on the County website at the discretion of the Director.

### (c) District Boundaries

Zone district boundaries shall be on municipal corporate lines, section lines, lot lines, natural boundary lines, or on the center lines of right-of-way lines of highways, streets, alleys, railroad rights-of-way, or such lines extended, unless otherwise provided.

### (d) Interpretation

The Director shall interpret the location of district boundaries on the Zone District Map using the following criteria. Interpretations of the location of district boundaries may be appealed to the Board of County Commissioners.

#### (1) Abandoned Rights-of-Way

Where a zone district boundary coincides with a right-of-way line and the right-of-way is subsequently abandoned, the zone district boundary shall then follow the centerline of the former right-of-way.

#### (2) Public Rights-of-Way

Land not part of public right-of-way and which is not indicated as being in any zone district shall be considered to be included in the most restrictive adjacent zone

---

<sup>6</sup> Current Chapter 17.08: Zone District Maps. Updated for clarity.

district even when the district is separated from the land in question by a public right-of-way.

**(3) Map Scale**

In cases where existing lines are not available, the zone district boundary shall be determined by the Director using the scale of the Zone District Map or other relevant references.

**(4) Boundary Clarification**

When a parcel of land under one ownership is divided by one or more zone district boundary lines in a manner that is consistent with the purpose and intent of this UDC and each portion may support a reasonable and legal use, then the zone district boundary line(s) shall be as determined by the scale of the Zone District Map.

**(e) Map Amendments<sup>7</sup>**

Changes in the boundaries of any zone district require an amendment to the Pueblo County Zone District Map per Section 17.02.030(b).

---

<sup>7</sup> New.

### 17.02.040 Dimensional Standards Applicable to All Zone Districts

#### (a) Dimensional Standards Established by Zone District

- (1) The dimensional standards applicable to each zone district are located within that zone district.
- (2) Legally nonconforming lots may be developed per Section <> [Nonconformities].
- (3) Exceptions and restrictions applicable to some dimensional standards are provided in this section. Other exceptions or restrictions may be provided for elsewhere in this Code. Where there is uncertainty about the applicability of dimensional exception, an applicant may request a Code Interpretation per Section <> [Administration].

#### (b) Intersection Sight Distance

Development shall conform with the intersection sight distance standards in Section 17.04.060, Subdivision Standards.

#### (c) Height Limit Exceptions<sup>8</sup>

- (1) Building height limit exceptions are building and site elements that project above the maximum height limit allowed in a zone district<sup>005</sup>
- (2) Screening may be required as described in Section 17.04.040, Landscaping, Screening, and Buffering.
- (3) Measurement
  - (i) Each height encroachment shall be measured from the maximum building height<sup>006</sup>
  - (ii) Building height encroachments are not cumulative in that they are always measured from the same point.
- (4) The following building height encroachments shall meet the specified standards:

Projection	Height Increase, Maximum (feet)
Chimneys, stacks, vents, and flues	10 FT above zone district height max
Antennas and towers (except as provided in Sec. <>, [Wireless Communication Facilities])	10 FT above zone district height max
Emergency sirens and similar devices	Any distance
Mechanical, electrical, and plumbing equipment; solar panels; air conditioner and evaporative coolers	10 FT above zone district height max
Parapet walls, safety railings, and screening walls	4 FT above zone district height max

<sup>8</sup> Existing Section 17.120.040 expanded to include a wider range of common exceptions.

I think the height of buildings needs to be looked at when 1 acre parcels are purchased and erased property lines. Example we had in PW was 5 1 acre parcels lines erased and then a 20k sq ft building proposed in a residential area. Totally out of place in a high residential area. There should be a limit on size and height.

*Type: Question*

*Agree: 0, Disagree: 0*

Who is responsible for building height limitations? Once it is approved. I have seen where the measurement is from the highest peak and then the build it higher than allowable.

Table 17.02.3: Height Limit Exceptions	
Projection	Height Increase, Maximum (feet)
Architectural features such as unoccupied belfries, flagpoles, spires, silos, domes, and windmills	10 FT above zone district height max

**(d) Setback Projections and Encroachments<sup>9</sup>**

- (1) Setback encroachments are building and site elements that project into or are located on the “non-buildable” side of a setback line, typically in a required setback area.
- (2) Permitted encroachments, identified below, are allowed where the required dimension is measured by a setback line.
- (3) Screening may be required as described in Section 17.04.040, Landscaping, Screening, and Buffering.
- (4) Measurement
  - (i) Each setback encroachment shall be measured from the minimum required setback line towards the lot line; setback encroachments are always measured from the same point and are not cumulative.
  - (ii) No permitted setback encroachment shall be closer than two feet to any lot line with the exception of fence, walls, gardens, and landscaping.
- (5) The following encroachments shall meet the specified standards:

Table 17.02.4: Permitted Setback Encroachments		
Projection	Front or Street Side Setback (max, feet)	Internal or Rear Setback (max, feet)
<b>Building Element</b>		
Approved accessibility ramps	Any distance	Any distance

## 17.02.050 Agricultural Zone Districts

### (a) Agricultural Districts Established

The UDC includes the following Agricultural zone districts. When the UDC refers to Agricultural zone districts as a group, these districts are included.

I do not believe signs may not encroach in Federal Highway setbacks. I do not know if state highways have a setback for signs. I have run into the Federal highway sign code that requires signs be 15 feet as measured from any place on the sign to property line of highway. But it has been some time.

I guess I am a little confused at can't encroach. Encroach on the next property line? I think this could be misinterpreted by someone.

I think the accessory building should set back from the house. at least by 10ft.

Building height within one zone should remain the same for consistency, and not have a 1/4 mile radius restriction from another zone.

Current A4 only requires 0.50 acres. Of those parcels, how many are built on already, which will create a legal-non-conforming use?

**(b) Large Agriculture (A1)<sup>15</sup>**

**(1) Purpose**

The purpose of the A1 district is to retain and promote the use of large, contiguous tracts of dry range and irrigated lands for agriculture, ranching, and conservation purposes. The A1 district provides opportunities for supporting uses that contribute to the long-term viability of existing or future agricultural or ranching operations.

<sup>25</sup> Dimensional standards for A-3, A-4, and R-A districts are the same with the exception of lot size and lot width. In this instance, the more restrictive lot width and lot size have been carried forward to match the larger minimum lot size.

<sup>26</sup> More permissive standards have been carried forward. R-1 minimum lot size is 7,300 sf.

<sup>27</sup> Measured per structure.

<sup>28</sup> Current residential districts include a minimum lot depth in addition to a minimum width.

<sup>29</sup> Densities are included to illustrate alignment with densities contained in the Comprehensive Plan.

<sup>30</sup> Front and rear building setbacks have been standardized and simplified across districts. Setbacks for individual dwelling types have been eliminated and setbacks for higher density districts have been reduced.

<sup>31</sup> Increased for LR, MR, and MH to support higher densities.

**Notes:**

[1] Development on existing lots with a minimum lot area of less than one acre will be considered legally nonconforming in accordance with Section 17.124.060.<sup>32</sup>

[2] Manufactured home parks shall comply with use-specific standards in Section 17.03.030 (c)(2).

[3] For attached dwellings this is the minimum lot width prior to subdivision.

**(b) Residential District Setback Adjustments**

**(1) Cluster Development<sup>33</sup>**

[To be drafted in conjunction with land conservation standards in Module 2: Development Standards.]

**(2) Zero Lot Line Development<sup>34</sup>**

- (i) In a zero lot line development, dwellings are shifted to one side of the lot to provide greater usable yard space on each lot.
- (ii) A zero lot line development is allowed in any residential zone except in RR.
- (iii) The outside boundary of the permissible building envelope for each lot must be graphically depicted on a map and be recorded with the plat. The corresponding plat shall note the existence of the building envelope map and reference its recording information.
- (iv) One side setback may be reduced down to zero. The street side setback and interior side setbacks abutting a property outside the project shall not change.
- (v) All zero lot line development shall comply with the following:

<sup>32</sup> Intended to address existing half-acre lots in the A-4 district.

<sup>33</sup> Current RLUP will be converted to procedure and expanded to provide more opportunities for conservation subdivisions of all sizes as part of Module 2: Development Standards and Module 3: Administration and Procedures.

<sup>34</sup> New

- a. The minimum distance between adjacent structures in the development must be equal to twice the required side setback of the zone unless changed pursuant to a cluster.
  - b. The eaves, including any gutters, on the side of the dwelling with the reduced setback may encroach up to 18 inches into the abutting lot within the project.
- (vi) A building envelope map shall note the extent and location of the potential encroachment. Appropriate easements shall be created for maintenance/repair purposes.
- (vii) A maintenance/repair easement shall be created when the eaves or side wall of a proposed house would be within four feet of the abutting property. In addition, any structure on the abutting lot is restricted to one or more feet from the common boundary so that after construction of both dwellings there remains at least five feet between the structures at all points, except when the structure is attached dwelling units.
- (viii) If a side wall of a structure is on the property line, or within three feet of the property line, windows or other openings that allow for visibility into the side yard of the adjacent lot are not allowed. Openings do not allow for visibility into the side yard of the adjacent lot, such as a clerestory skylight or opaque window, are allowed.
- a. Windows that do not allow visibility into the side yard of the adjacent lot, such as a clerestory window or translucent window, are allowed.
  - b. When openings are permitted, all building and fire codes shall apply.

**(c) Rural Residential (RR)<sup>35</sup>**

**(1) Purpose**

The purpose of the RR district is to provide and retain lands for low-density residential development in established metropolitan districts and agricultural areas. The RR district accommodates limited agricultural and other complementary uses suited to a rural or semi-rural setting.

**(2) Dimensional Standards**

<sup>40</sup>Minimum building setbacks and maximum building coverage have been reduced (generally by 5 feet over current) to reflect the more compact development pattern desired in mixed-use districts.

**(b) Mixed-Use Neighborhood (MN)<sup>41</sup>**

**(1) Purpose**

The purpose of the MN district is to retain and provide opportunities for small-scale retail, office, and commercial uses in a neighborhood setting in conjunction with moderate density residential development. Residential development in MN districts is characterized by attached dwelling units and smaller multi-family dwelling unit structures.

**(2) Dimensional Standards**

**(c) Mixed-Use Commercial (MC)<sup>42</sup>**

**(1) Purpose**

The purpose of the MC district is to retain and provide opportunities for large-scale retail, office, and commercial uses in high activity settings in conjunction with moderate to high density residential development. Residential development in MC districts is characterized by multi-family dwelling unit structures or multi-family dwelling units integrated with nonresidential uses in the same structure.

**(f) PuebloPlex (PP)<sup>52</sup>**

**(1) Purpose**

The purpose of the PP district is to support the implementation of the PuebloPlex Redevelopment Plan. Specifically, the PP district is intended to:

- (i) Recognize the unique nature, location, and conditions of the PuebloPlex property;
- (ii) Allow for a wide range of uses as may be consistent with the PuebloPlex mission and technological advances over time;
- (iii) Establish flexible site layout and development standards to promote orderly development, high quality project design, economies of construction, and the preservation of open space;
- (iv) Provide greater flexibility in locating buildings and combining compatible uses to support economies of construction and the preservation of open space; and
- (v) Establish specialized review and approval procedures for PuebloPlex projects.

**(2) Dimensional Standards**

## 17.02.090 Special Purpose Districts

### (a) Special Purpose Districts Established<sup>53</sup>

The UDC includes the following Special Purpose districts. When the UDC refers to Special Purpose districts as a group, these districts are included.

Existing Zone District		Zone District Name		Section
S-1	Public Use	PL	Public Lands	17.02.090(b)
		CF	Community Facilities	17.02.090(c)
S-4	Parking	--	--	--
C-1	Conditional (Intent to Rezone)	--	--	--

### (b) Public Lands (PL)

#### (1) Purpose

The purpose of the PL district is to retain and provide land areas for public use and to provide notice of potential changes in the use of public lands.

#### (2) Applicability

The PL district is applicable to lands in Pueblo County that are owned and managed by County, state, or federal agencies.

<sup>53</sup>PL and CF are based on the current S-1 zone district (Chapter 17.84). They have been split to distinguish requirements for state and federal lands that the County does not have jurisdiction over from other public and quasi-public facilities.

**(c) Community Facilities (CF)<sup>54</sup>**

**(1) Purpose**

The purpose of the CF district is to accommodate public, educational, institutional, cultural, recreational, and similar uses to serve the needs of the County.

**(2) Applicability**

The CF district is applicable to public and quasi-public facilities that are not state or federally owned.

<sup>54</sup> The Uses by Right and Uses by Review language in current S-1 has been deleted and will be replaced with a site plan review process in Module 3.

**17.02.100 Overlay Districts**

**(a) Overlay Districts Established**

The UDC includes the following Overlay districts. When the UDC refers to Overlay districts as a group, these districts are included.

Table 17.02.41: Overlay District Summary				
Existing Zone District		Zone District Name		Section
S-2	Airport	APO	Airport Overlay	17.02.100(b)
S-3	Floodplain	FPO	Floodplain Overlay	17.02.100(c)

--	--	CCO	Colorado City Overlay	17.02.100(f)
PUD	Planned Unit Development	PUD	Planned Unit Development	
RLUP	Rural Land Use Process	--	-- <sup>55</sup>	--

<sup>55</sup>Current RLUP will be converted to procedure and expanded to provide more opportunities for conservation subdivisions of all sizes as part of Module 2: Development Standards and Module 3: Administration and Procedures.

**(b) Airport Overlay (APO)<sup>56</sup>**

**(1) Purpose**

The purpose of the APO district is to promote the use and development of land in a manner compatible with the continued operation and utility of the Pueblo Memorial Airport to protect the public investment in, and benefit provided by, the facility to the region. The district also protects the public health, safety, convenience, and general welfare of citizens utilizing the facility or living and working in the vicinity, by preventing the creation or establishment of obstructions or incompatible land uses hazardous to the airport's operation or the public welfare.

**(2) Applicability**

The APO district shall apply to lands in the vicinity of the Pueblo Memorial Airport, as shown on the Pueblo County Zone District Map.

**(3) Dimensional and Building Height Requirements**

- (i) The zone district dimensional requirements for each zone district within the APO district shall apply except for the building height requirements.
- (ii) Within the APO district, the height of structures, buildings, trees, or fences shall not exceed the limits identified here and shown on the Zone District Map for:
  - a. Approach surface: defined by an inclined plane with a slope of 50:1, 40:1, or 20:1 as shown on the zone maps.
  - b. Horizontal surface: defined by a horizontal surface located 150 feet above the established airport elevation and radiating out from the airport as shown on the zone maps.
  - c. Conical surface: extends upward from the periphery of the Horizontal Surface (defined in subsection b above) at a slope of 20:1 and outward a distance shown on the zone maps.
  - d. Transitional surface: extends upward from lines parallel to the center line of the runway at an angle of 7:1 a distance shown on the zone maps.

---

<sup>56</sup> Based on current S-2 base zone district (Chapter 17.88). New purpose statement and applicability to specifically address Pueblo Memorial Airport and vicinity. Standards will be updated based on input from the Airport Director.

**(c) Floodplain Overlay (FPO)<sup>57</sup>**

**(1) Purpose**

The FPO district is intended to retain and provide areas for the unobstructed passage of flood waters and give protection from floods to the population, buildings, and structures located therein and in the surrounding areas.

**(2) Applicability**

The boundaries of the FPO district shall include all Special Flood Hazard Areas and areas removed from the floodplain by the issuance of a Federal Emergency Management Agency (FEMA) Letter of Map Revision Based on Fill (LOMR-F) within the jurisdiction of Pueblo County.

**(3) Basis for Establishing Special Flood Hazard Areas<sup>58</sup>**

- (i) The Special Flood Hazard Areas identified by the Federal Emergency Management Agency in a scientific and engineering report entitled "The Flood Insurance Study (FIS) for the County of Pueblo," dated August 15, 2019, with accompanying Flood Insurance Rate Maps and/or Flood Boundary-Floodway Maps (FIRM and/or FBFM) and any revisions thereto incorporated by reference into this chapter.
- (ii) These Special Flood Hazard Areas identified by the FIS and attendant mapping are the minimum area of applicability of this chapter and may be supplemented by studies designated and approved by the Pueblo Board of County Commissioners.
- (iii) The Floodplain Administrator shall keep a copy of the Flood Insurance Study, DFIRMs, FIRMs and/or FBFMs on file and available for public inspection. The Flood Insurance Study and FIRM are on file at the County Zoning Administrator's office at the Pueblo County Department of Planning and Development. The County Zoning Administrator may also make this information available electronically.

---

<sup>57</sup> Based on the current S-3 base zone district (Chapter 17.92). To be aligned with current flood hazard area regulations in 17.108.

<sup>58</sup> Current 17.108.070.

**(4) Standards<sup>59</sup>**

Properties zoned in the FPO district are subject to the floodplain regulations in Chapter <> [17.108]. In cases where the FPO and base zoning regulations conflict, FPO regulations apply.

---

<sup>59</sup> S-3 includes restriction to allow for wire fencing only.

**(d) Agricultural Conservation Overlay (AGO)**

**Comments**

Current cluster subdivision and rural land use process standards focus primarily on the preservation of open space. District-specific standards associated with the AGO will be oriented specifically to site layout considerations related to the protection of high-value soils and the viability of agricultural operations (e.g., prioritizing the use of non-irrigated or remnant land for homesites, minimizing impact on access to adjacent parcels and irrigation infrastructure), and/or exploring the use of lot size averaging as an alternative to cluster subdivisions).

**(1) Purpose**

The AGO district is intended to protect and retain larger, contiguous tracts of prime farmland and agricultural land for the purposes of food or crop production that supports local and regional food systems and the economy.

**(2) Applicability**

The boundaries of the AGO district shall be as shown on the Pueblo County Zone District Map.

This concept is a nice addition to the planning process but there needs to be a plan to ensure it is consutently enacted.

**(3) Agricultural Conservation Overlay Boundary<sup>60</sup>**

Source: Pueblo County, USDA, CDPHE, Palmer Land Trust

**(4) Standards**

Properties in the AGO district are subject to the land conservation standards in Section 17.04.070<sup>61</sup> in addition to the standards below:

- (i) [To be drafted as part of Module 2: Development Standards]

<sup>60</sup> Proposed boundary for the AGO is derived from the Agricultural and Ranch Lands map in the Comprehensive Plan, which was created in collaboration with the Palmer Land Trust. Specifically, it includes prime farmland (irrigated) and prime agricultural land (unirrigated, generally rangeland, prime farmland if irrigated). Farmland (irrigated, not prime) is not included in the proposed boundary.

<sup>61</sup> To be drafted as part of Module 2: Development Standards. The land conservation standards will combine and update current cluster subdivision and rural land use process standards to expand opportunities for conservation subdivisions of various sizes.

**(e) Pueblo West Overlay (PWO)<sup>62</sup>**

**(1) Purpose**

The PWO district is intended to distinguish properties that may be subject to requirements and review processes associated with the Pueblo West Declaration of Reservations in addition to the rules and requirements of this UDC.

**(2) Applicability**

The boundaries of the PWO coincide with the boundary of the Pueblo West Metropolitan District, as established by the Pueblo West Declaration of Reservations and shown on the Pueblo County Zone District Map.

**(3) Standards**

Properties zoned within the PWO district shall be subject to the requirements of the Pueblo West Declaration of Reservations, as may be applicable, in addition to the requirements of the underlying base zone district. In the case where the base zoning regulations and the Pueblo West Declaration of Reservations conflict, the Pueblo West Declaration of Reservations regulations shall apply.

**(4) Lapse of Standards<sup>63</sup>**

[To be addressed as part of Module 2: Development Standards and Module 3: Administration and Procedures].

**(f) Colorado City Overlay (CCO)<sup>64</sup>**

**(1) Purpose**

The CCO district is intended to distinguish properties that are subject to requirements and review processes associated with Colorado City Protective Covenants in addition to the rules and requirements of this UDC.

**(2) Applicability**

The boundaries of the CCO coincide with the boundary of the Colorado City Metropolitan District, as established by the Colorado City Protective Covenants and shown on the Pueblo County Zone District Map.

---

<sup>62</sup> New.

<sup>63</sup> This section will clarify regulations and enforcement for 'No Standing' tracts, which are defined as neighborhoods in which 90% of the lots in that tract are occupied by a residential or business structure.

<sup>64</sup> New.

**(3) Standards**

Properties zoned within the CCO district shall be subject to the requirements of the Colorado City Protective Covenants, as may be applicable, in addition to the requirements of the underlying base zone district. In the case where the base zoning regulations and the Colorado City Protective Covenants conflict, the Colorado City Declaration of Reservations regulations shall apply.

**(g) Planned Unit Development District (PUD)**

**(1) Purpose<sup>65</sup>**

In accordance with Colorado Revised Statutes, Sections 24-67-101, et seq., the purpose of the PUD district is to:

- (i) Further the public health, safety, integrity, and general welfare within Pueblo County in ways consistent with the Comprehensive Plan;
- (ii) Facilitate development by permitting greater flexibility than allowed by the strict application of the UDC in exchange for more innovative designs with a higher level of amenities and public benefits than is otherwise possible under the base zone districts; and
- (iii) Accommodate unique development layouts that preserve natural, environmental, and scenic features of the site or address challenges presented by specific site conditions.

**(2) Establishment of a PUD District**

PUD districts shall be established pursuant to the procedures set forth in Section <> [Administration and Procedures].<sup>66</sup>

**(3) Applicability<sup>67</sup>**

An application for a PUD district shall only be considered if it meets the following criteria:

---

<sup>65</sup> Replaces and simplifies current 17.126.010.

<sup>66</sup> Code amendment procedures, including rezoning to a PUD district (current 17.126.140-170) will be drafted in Module 3: Administration and Procedures. The submittal requirements of 17.126.040 have been removed from this section to be relocated to the County's website.

<sup>67</sup> New. Replaces and integrates topics from current 17.126.130, Design Standards. Those provisions will also inform the criteria for review and approval of a request to rezone to a PUD, to be drafted in Module 3.

- (i) The proposed PUD includes a minimum of five acres of land held in single ownership;<sup>68</sup>
- (ii) The proposed PUD could not be developed using conventional zone districts or standard established in this UDC;
- (iii) The application is not being submitted to provide a site-specific solution to a single issue that can be resolved through a more appropriate administrative means; and
- (iv) The proposed PUD incorporates at least one of the following public benefits:
  - a. The PUD protects, preserves, and/or manages areas of significant natural resources or prime agricultural land;
  - b. The PUD features outstanding site design and construction such as best management practices for on-site storm water management, green building materials, solar orientation of building forms, and/or water and energy efficiency;
  - c. Site design in the PUD will create a diverse neighborhood with a mix of housing choices;
  - d. The PUD includes an internally and externally connected park, trail, and open system designed for the occupants/residents of the PUD district; or
  - e. The PUD provides a different substantial benefit to the County as determined by the Director of the Department of Planning and Development.

**(4) Identification of Base Zone District<sup>69</sup>**

Each PUD application shall identify a base zone district or districts from the districts established in this UDC to apply to each area of the PUD. The terms of the base zone district(s) may be varied by the terms of the PUD development plan. Where a PUD approval is silent as to a development term or requirement, the requirements of the applicable base zone district shall apply.

**(5) Areas of Flexibility Allowed<sup>70</sup>**

Through Section <> [PUD approval process]<sup>71</sup>, the County may approve requested adjustments or waivers to any development standard in this Code, except regulations

## Chapter 17.03 Use Regulations

### 17.03.010 Purpose and Organization

---

#### (a) Purpose

This chapter identifies the land uses allowed in Pueblo County’s zone districts and establishes standards that apply to certain uses with unique characteristics or impacts.

#### (b) Organization

- (1) Section 17.03.020, Table of Allowed Uses, lists land uses allowed by district and provides cross-references to applicable use-specific standards.
- (2) Section 17.03.030, Use-Specific Standards, establishes use-specific standards applicable to specific land uses.
- (3) Section 17.03.040, Accessory Uses and Structures, establishes standards applicable to accessory uses and structures.
- (4) Section 17.03.050, Temporary Uses and Structures, establishes standards applicable to temporary uses and structures.
- (5) Section 17.03.060, Special Event Standards, establishes standards applicable to events requiring a Special Event Permit.

### 17.03.020 Table of Allowed Uses

---

#### Commentary

The proposed Table of Allowed is based on the current permitted uses in the Zoning Code with several proposed consolidations and additions.

**Table reflects new districts.** The Table of Allowed Uses reflects the new and renamed zone districts listed in Chapter 17.02. When districts were consolidated in a way that could have resulted in conflicting use permissions, we typically included the more flexible use permission.

**Table organization.** The current lineup of zone districts is included along the top row for reference and convenience, demonstrating generally how these current districts relate to the new proposed zoning districts. The reference to current districts will be removed prior to adoption but can be retained for as long as necessary during public review of the Unified Development Code update. The table is organized based on use intensity, beginning with less

intense residential uses, then moving into public, civic, and institutional uses, then commercial, and ending with more intense industrial uses. Several use types are consolidated for simplicity, and some use types are being introduced to the table. Generally, when determining use permissions in the new zone districts, the existing permissions in the related existing districts were followed unless otherwise noted. Similarly, if an existing use was allowed in all existing zone districts, the same allowances were added to all new zone districts.

**Use-specific standards and definitions.** The last column indicates whether additional standards apply to that use. Each use type has a definition in Chapter 17.07. The standards should be reviewed simultaneously with the Table of Allowed Uses and definitions. Significant changes to standards or definitions are indicated in the footnotes of the respective sections.

As you review the Table of Allowed Uses and associated use-specific standards, please consider the following:

- 1) For a use that is shown as prohibited (blank cell), ask “why not in this zone district?”
- 2) For a use that is shown as prohibited (blank cell), ask “can a use-specific standard be included to mitigate concerns related to that use to make it acceptable in that zone district?”
- 3) For uses shown as requiring Special Use Permit (“S”), ask “should this use be permitted by right in this zone district?”
- 4) For uses show as either “P” or “S,” ask “are there additional standards necessary to mitigate potential impacts?”

## **(a) Explanation of Use Permission Abbreviations**

### **(1) Uses Permitted By-Right**

“P” in a cell indicates that the use is permitted by right in the respective zone district. Permitted uses are subject to all other applicable regulations of the UDC.

### **(2) Special Use Permit Required**

“S” in a cell indicates that the use is only permitted in the respective zone district with approval of a Special Use Permit pursuant to Section < > [Special Use Permit], subject to all other applicable regulations of the UDC.

### **(3) Zoning Compliance Review for Marijuana Required**

“M” in a cell indicates that the use is only permitted in the respective zone district with approval of a Zoning Compliance Review for Marijuana, subject to all other applicable regulations of the UDC.

**(4) Zoning Compliance Review for Hemp Required**

"H" in a cell indicates that the use is only permitted in the respective zone district with approval of a Zoning Compliance Review for Hemp, subject to all other applicable regulations of the UDC.

**(5) Application to Conduct a Designated Activity of State and Local Interest**

"D" in a cell indicates that the use is only permitted in the respective zone district with approval of an Application to Conduct a Designated Activity of State and Local Interest pursuant to Section <> [1041 Permit], subject to all other applicable regulations of the UDC.

**(6) Accessory Use**

"A" in a cell indicates that the use is only permitted in the respective zone district as an accessory use.

**(7) Temporary Use**

"T" in a cell indicates that the use is only permitted in the respective zone district as a temporary use.

**(8) Prohibited Use<sup>72</sup>**

A blank cell indicates that the use is prohibited in the respective zone district.

**(9) Use-Specific Standards**

In some instances, use-specific standards apply to certain land uses in a specific zone district. Regardless of whether a use is allowed by right or with approval of a Special Use Permit, Zoning Compliance Review, or 1041 Permit, additional standards may be applicable to that use. Use-specific standards are identified and cross-referenced in the last column of the table.

This "Permitted Use" would conflict with East Hatchet Ranch HOA covenants, as any storage would require the residential building FIRST.

Will Temporary Use allow camping? What is the term of Temporary? What action needs to be taken to restart the clock?

## 17.03.030 Use-Specific Standards

---

### (a) General Standards

- (1) The use-specific standards listed in this section shall apply to those uses listed on the same line of the use table in Section 17.03.020, regardless of their respective level of permission.
- (2) Use-specific standards in this section apply to all zone districts unless otherwise stated.
- (3) Should any use-specific standards conflict with the standards in Chapter 17.04, Development Standards, these use-specific standards shall apply unless otherwise stated.

### (b) Agricultural Uses

#### (1) Agricultural Processing<sup>152</sup>

- (i) Any outdoor storage in connection with the processing facility shall be screened from existing dwellings within 500 feet, in accordance with Section 17.04.040, Landscaping, Screening, and Buffering.
- (ii) Any processing operation shall be located at least 100 feet from property lines unless a greater setback is required by another section of this Code.
- (iii) The agricultural processing and sales facility shall be operated by the owner or lessee of the agricultural use.
- (iv) The hours of operation are limited to the hours between 7:00 am and 9:00 pm.
- (v) Noise, fumes, dust, odors, or light generated as a result of the processing shall not exceed established County standards when measured at the property line.
- (vi) The processing facility is not permitted to include any activities that might allow it to be classified as a hazardous waste generator under state or federal regulations.

#### (2) Aviary<sup>153</sup>

- (i) A Minimum lot size of two acres shall be required.
- (ii) The breeder shall not provide care for more than 40 birds on a parcel of land at any time.

---

<sup>152</sup> New.

<sup>153</sup> New.

- (iii) Shelters, cages, and accessory structures shall be set back a minimum of 50 feet from all property lines.
- (iv) Outdoor shelters and cages shall be shall be screened from existing dwellings within 500 feet, in accordance with Section 17.04.040, Landscaping, Screening, and Buffering.
- (v) The breeder shall locate birds which excessively screech, chirp, crow, or make loud noises away from residential properties to the maximum extent possible.

**(3) Equestrian Operation (Commercial or Private)<sup>154</sup>**

- (i) All equestrian operations shall use appropriate best management practices to address potential environmental and compatibility impacts of their operation. Applicants shall prepare a resource stewardship plan that outlines the best management practices to be implemented for the following issues or topics, as applicable: management of water quality, storm water, soil erosion, manure, dust, pasture vegetation, pests, wildlife, and weeds.
- (ii) Outdoor storage of horse trailers is allowed as part of an equestrian operation.
  - a. Only those trailers that are for use by owners of the property, people associated with the operation, and/or boarded horses may be stored. General trailer storage is not allowed.
  - b. All horse trailers shall be currently licensed and operable.
- (iii) The following additional standards shall apply to private equestrian operations:
  - a. The equestrian operation shall be accessory and incidental to the ranch, farm, or home site on which it is located;
  - b. The use of the arena is limited to the family and invited guests of the farmer/rancher/home occupant;
  - c. No commercial competition or commercial entertainment occurs, and no user fees, dues or other compensation are paid; and

---

<sup>154</sup> New.

- d. The arena is operated in a manner so that there is no adverse impact on surrounding properties relating to dust, erosion, odor, noise, glare, off-site illumination (more than one-foot candle of illumination measured at the property line), waste disposal, and traffic and parking congestion. Neither nuisance nor noxious activity shall be conducted on the property, which is caused by the use of the property as a personal equestrian operation.

**(4) Feed Lots<sup>155</sup>**

- (i) Feed lots must be set back at least 200 feet from all property lines.
- (ii) Any outdoor activity in connection with the feed lot shall be screened from existing dwellings within 500 feet, in accordance with Section 17.04.040, Landscaping, Screening, and Buffering.
- (iii) The feed lot shall be operated in a manner so that there is no adverse impact on surrounding properties relating to dust, erosion, odor, noise, glare, off-site illumination (more than one-foot candle of illumination measured at the property line), and waste disposal.

**(5) Hemp Establishment**

- (i) Prior to the operation of any Hemp Establishment, a Zoning Compliance Review Hemp application shall be submitted for review by the Pueblo County Department of Planning and Development and only upon approval shall the operation be permitted.
- (ii) Prior to the operation of any Hemp Establishment, a Commercial Industrial Hemp Permit or Research and Development Permit shall be obtained from the State of Colorado Department of Agriculture. The permit shall be submitted to the Pueblo County Department of Planning and Development as part of the Zoning Compliance Review Hemp application.
- (iii) Prior to the operation of any Hemp Establishment, proof of processing either on-site or the name of the processing company shall be submitted to the Pueblo County Department of Planning and Development as part of the Zoning Compliance Review Hemp application.

---

<sup>155</sup> New.

- (iv) Uses established pursuant to this Section shall at all times be in complete compliance with the terms and conditions of its Hemp Establishment permit for Permits issued by the State of Colorado Department of Agriculture and Pueblo County.
- (v) No hemp establishment shall be allowed as a Home Occupation use.
- (vi) Distances are measured from the property line of the Hemp Establishment is located using a direct line. If a Hemp Establishment is part of a larger parcel of land as described as one property by legal description in a recorded deed upon which several Hemp Establishments are to be located, the distances are measured from the fence line of each Hemp Establishment or if no fences, from the outside boundary of the grow area or from the greenhouse and/or building in which the Hemp Establishment is located. This subsection shall not apply to:
  - a. Any Hemp Establishment that contains only plants that are confirmed female and documentation of female only plants shall be submitted to the Pueblo County Department of Planning and Development;
  - b. Any Hemp Establishment who submits a waiver of the distance requirement that is signed by all Marijuana Establishments within the five mile radius; or
  - c. A location where the Pueblo County Department of Planning and Development previously approved a Zoning Compliance Review Hemp application and a permitted Hemp Establishment has existed in continuous operation since the time of original permitting.
- (vii) No Hemp Establishment shall be located within 1,000 feet of any existing public or private elementary, middle, junior high or high school as measured from property line of the school to the property line of the Hemp Establishment using a direct line.
- (viii) No Hemp Establishment shall be located in:
  - a. A building containing residential units,
  - b. A movable or mobile structure.
- (ix) In the A1 and A2 zone districts:
  - a. Hemp Establishments are only permitted in a greenhouse, building, or outside farming.
- (x) In the LI and HI zone districts:
  - a. Hemp Establishments are only permitted in a greenhouse or building.

- (xi) Male hemp plants and hermaphrodite hemp plants shall only be grown in an enclosed building, which does not include a greenhouse, with a proper filtration system and clothing/footwear preventative measures (i.e., clean room mat) to prevent escape of pollen/seed/or other product that might be detrimental to a hemp and/or marijuana crop. (Res. P&D 16-014, app. 2-10-2016)
- (xii) The transport of Industrial Hemp shall be accompanied by a copy of the Department of Agriculture Hemp Permit.
- (xiii) Quarterly and year end harvest data shall be provided to Pueblo County Department of Planning and Development.
- (xiv) Pueblo County Department of Planning and Development has the right to inspect the Hemp Establishment and request paperwork from the Department of Agriculture. Other Governmental Agencies whether state or local, such as Colorado Division of Water Resources, Pueblo Regional Building Department, City-County Health Department, have the right to inspect the Hemp Establishment for compliance with their respective regulations.

**(6) Sawmill<sup>156</sup>**

- (i) All structures associated with the sawmill must be set back at least 200 feet from any adjacent residentially zoned property.
- (ii) When located adjacent to a residentially zoned property, noise levels emitted by the sawmill, shall not exceed those levels outlined in the County Noise Ordinance ([Chapter 10.06](#)) as measured at the property line.

**(c) Residential Uses**

**(1) Cottage Court**

**(i) Yards<sup>157</sup>**

For the purposes of determining the yard requirements, cottage courts shall be considered as one building occupying one parcel subject to the following regulations:

- a. The front and rear yard shall be the same as required in the zone district where permitted, and the width of the required individual side yard shall be increased an additional width of two feet for each building abutting on the same side yard.
- b. Buildings that are placed end-to-end shall be separated by at least 10 feet.

---

<sup>156</sup> New.

<sup>157</sup> Existing regulations from Section 17.120.120: Grouped Houses—Yards.

- c. Buildings that are not end-to-end shall be separated by at least 20 feet. If there is a roadway between the buildings, the required separation width shall be measured exclusive of the roadway width.

**(2) Manufactured Home Park<sup>158</sup>**

**(i) Recreation and Other Vehicles**

No detached camper, motor home, travel trailer, motorbike, unlicensed car, boat, airplane, or similar recreational vehicle (“extra” vehicles) shall be parked upon any street or parking space within the manufactured home park.

**(ii) Storage Area**

Within the manufactured home park, one or more areas shall be designated as storage areas for extra vehicles. At least 100 square feet of all-weather surfaced area shall be provided within a designated storage for each manufactured home space in the park.

**(iii) Roadways<sup>159</sup>**

- a. All spaces shall front onto a roadway. All roadways shall be paved with a minimum of two inches of asphalt, two inches of base, and six inches of subbase. Roadways which are utilized by less than 35 spaces may be paved with an all-weather surface material consisting of a minimum of 10 inches of gravel. Additional paving material may be required when engineering reasons so warrant. All paving material shall be approved by the Public Works Director.
- b. The manufactured home park shall have an access roadway onto a dedicated public roadway. That segment of roadway between the public roadway and the first intersecting park roadway, cul-de-sacs notwithstanding, shall be considered the access roadway. A manufactured home park containing more than 200 units shall provide a second access roadway, located at least 250 feet from the first access roadway, as measured between the points of intersection with the public roadway.

---

<sup>158</sup> Existing regulations from Section 17.48.

<sup>159</sup> These standards are subject to change based on future discussions with the County’s Public Works Department and alignment with fire code requirements.

- c. Pavement width on all roadways shall be a minimum of 35 feet. For a manufactured home park containing more than 50 spaces, at least one access roadway shall be paved to a minimum of 44 feet. Cul-de-sacs shall have a paved radius of 45 feet.
- d. Roadways terminating in cul-de-sacs shall not exceed 500 feet in length, nor serve more than 20 spaces.
- e. Roadway names within the park shall be selected to avoid duplication of, or confusion with, existing roadways in the city or county. If a manufactured home park roadway is a logical extension of an existing roadway, the name of the existing roadway may be selected. Each roadway within the park shall be identified by a sign, the location and type being approved by the Public Works Director.

**(iv) Sidewalks**

An all-weather surface sidewalk shall be provided along roadways and from roadways to individual homes and support facilities where the lack of walks constitutes a safety hazard.

**(v) Lighting**

- a. Illumination of the park shall be provided to assure the security and safety of the residents. All lighting shall comply with the standards in Section 17.04.050, Outdoor Lighting.
- b. All support facilities shall be provided with interior illumination commensurate with the activities or tasks to occur therein, and exterior lighting to assure the security of the participants.

**(vi) Landscaping<sup>160</sup>**

- a. Two trees and four shrubs shall be provided for each manufactured home space, at least one-half of which shall be located on the manufactured home space. The remaining one-half may be dispersed or clustered throughout the park. The Applicant may propose an alternative landscaping plan, subject to approval by the Director, that aligns with the intent of this subsection.

---

<sup>160</sup> The landscaping requirements of this subsection are still being discussed, and will likely be updated during Module 2: Development Standards.

- b. In addition, there shall be required 200 square feet of grassed area for each manufactured home space, all of which may be dispersed or clustered throughout the manufactured home park. All landscape material shall be maintained in a living, disease- and pest-free manner.

**(d) Commercial Uses**

**(1) Adult Uses<sup>161</sup>**

- (i) No adult use shall be located or established within 1,000 feet of any other adult use.
- (ii) No adult use shall be located or established within 500 feet of any Agricultural, Residential, or Mixed-Use zone district, or established within 500 feet of any religious institution, school, public park, or dwelling, including all structures used for residential purposes.
- (iii) Minimum distances shall be measured in a straight line from the zone district boundary of the zone district specified in subsection (ii) above; from the property line of a church or other place of worship, school, public park or dwelling, to the nearest wall of the building with the adult uses. The required separation between adult uses shall be measured in a straight line from the nearest building wall to the nearest wall of any other adult use.
- (iv) The location and establishment of adult uses is prohibited in any zone district in Pueblo County except those zone districts in which the adult use is expressly permitted as a use by right in Table 17.03.1. The provisions of this UDC shall not be interpreted to allow an adult use as a use by review in any other zone district.

**(2) Campground or Recreational Vehicle Park<sup>162</sup>**

**(i) Compliance with Colorado Regulations**

- a. RV parks shall meet the requirements of a semi-developed campground per the Colorado Code of Regulations, 6-CCR-1010-9:
  - 1. Two or more campsites
  - 2. Accessible by any type of vehicular traffic
  - 3. Provides roads, trails, and campsites and basic sanitary facilities, such as toilets or privies.

---

<sup>161</sup> Existing regulations from Section 17.120.170.

<sup>162</sup> New.

- b. RV Parks are also subject to the standards of this section, as well as all applicable state and federal requirements, adopted building codes, fire district requirements, and other applicable codes as adopted by the County.

**(ii) Dimensional Standards**

<b>Table 17.03.2: Recreational Vehicle Park Dimensional Standards</b>	
RV Park Density, Maximum [1]	20 sites/acre gross
RV Park Setbacks	
Front	25 FT
Side and Rear	20 FT
RV Site Setbacks, Minimum/Maximum	
From the perimeter of the RV park	25 FT
From RV, tent, or camp cabin sites	20 FT
From interior roadways	10 FT
From common service buildings	20 FT/500 FT
Buffer between any sites in the park and residential uses	100 FT
RV Site Area, Minimum	900 SF
Tent Site Area, Minimum	600 SF
<b>Notes:</b>	
[1] The area in roadways within the recreational vehicle park is included in determining the density.	

**(iii) Uses**

- a. RV parks may include sites for recreational vehicles, tents, and camping structures such as cabins, yurts, or safari tents.
- b. Cabin units shall obtain a Pueblo County Building Permit and meet all minimum setbacks and space dimensions of Table <>.
  - 1. Each unit shall have a fire alarm with battery backup and a fire extinguisher.
  - 2. Units may contain one electric heat source, not to exceed 1500 watts on a dedicated 120-volt circuit, not to exceed 15 amps, with GFCI protection. A second separate 120-volt circuit not to exceed 15 amps with GFCI protection may also be included for lights and outlets.
  - 3. Units shall be placed on a permanent foundation that meets the Pueblo County minimum foundation requirements, or be placed on treated wood timbers, a minimum of six inches by five inches. In all cases, cabins shall be adequately anchored for the appropriate wind load.

**(iv) Occupancy**

- a. Recreational vehicle sites with full utility hookups to a state or County approved water, electricity, and gas supply and a state or County approved sewage disposal system are eligible for stays of up to 28 consecutive days.
- b. All other site types have a stay limit of 10 consecutive days.

**(v) Sites**

- a. Each site shall be numbered.
- b. All forms of overnight accommodation shall be parked or located on a site.
- c. Each RV site shall be equipped with an electrical hookup.
- d. At least one site with accessible/mobility features shall be provided for every 25 sites within the RV park.

**(vi) Access and Circulation<sup>163</sup>**

- a. The RV park shall have access to and frontage along a public road.
- b. The access drive to recreational vehicle parks shall be 20 feet wide for one-way traffic and 26 feet wide for two-way traffic. The drive shall be surfaced in accordance with County standards.
- c. Road systems within a recreational vehicle park are required. Road systems shall form a loop system and be constructed in the same manner and to the same standard as an access road. If a road system is for one-way traffic only, directional signs shall be installed.
- d. An internal pedestrian circulation system shall be provided and shall be constructed with an all-weather surface. All walkways within the RV park shall be at least five feet wide.

**(vii) Lighting**

- a. Entries, access drive aisles, and walkways shall be lighted every 500 feet consistent with the overall design of the RV park. All lighting shall comply with the standards in Section 17.04.050, Outdoor Lighting.
- b. Entryways to common service buildings shall be lighted during all operational hours between dusk and dawn.

---

<sup>163</sup> These standards are subject to change based on future discussions with the County's Public Works Department and alignment with fire code requirements.

**(viii) Landscaping**

- a. Areas of RV parks that abut residentially zoned properties shall be screened in accordance with Section 17.04.040, Landscaping, Screening, and Buffering.
- b. All areas shall be covered with either natural vegetation and/or an acceptable form of ground cover so as to facilitate drainage, reduce dust, prevent erosion, and reduce fire hazards.
- c. One tree shall be provided for every two sites and shall be located in close proximity to those two sites. Existing trees on the site may be used to satisfy this requirement. If the location is not suited for the planting of trees, a shade structure measuring at least 10 feet in each dimension shall be provided for each site.

**(ix) Recreation Area**

A minimum of 10 percent of the gross area within the perimeter of the RV park shall be maintained as a recreation area. Recreation areas may include adult recreation and child play areas, but shall not include sanitary facilities or parking areas.

**(x) Sanitary Facilities**

- a. Every recreational vehicle park shall include a minimum of one unisex sanitary facility as approved by Pueblo County Department of Public Health and Environment.
- b. All sanitary facilities shall comply with the requirements of the Americans with Disabilities Act (ADA) and the ADA Standards for Accessible Design.
- c. Required toilet, lavatory, and bathing fixtures shall be provided in the minimum numbers unless otherwise approved by the Pueblo County Department of Public Health and Environment.

<b>Table 17.03.3: Minimum Sanitary Facility Requirements</b>			
<b>Sites</b>	<b>Toilets</b>	<b>Lavatories or Hand Sinks [1]</b>	<b>Showers</b>

<b>Sites</b>	<b>Toilets</b>	<b>Lavatories or Hand Sinks [1]</b>	<b>Showers</b>
[1] Lavatories or hand sinks shall be included only when full sanitary facilities are required.			

**(xi) Water Services**

- a. The water supply system shall be designed, constructed, and maintained in compliance with Colorado Department of Health regulations and recommendations to provide a safe, potable and adequate supply of water.
- b. Each recreational vehicle park shall have at least one potable water hydrant, including water faucets on posts and hand pump hydrants, for common use.
- c. Potable water hookups for individual connections to recreational vehicles shall meet the adopted plumbing code standards including backflow prevention, shut-off valve to control rate of water flow, and be equipped with flexible hose to reach the inlet of recreational vehicle water storage tanks.
- d. If individual connections are not provided for each site in the recreational vehicle park, every site shall be within a 200-foot radius have at least one potable water hydrant.
- e. Each potable water hydrant and hookup shall be constructed to allow good drainage and prevent freezing.

**(xii) Sanitary Sewer**

- a. A minimum of one sanitary waste station shall be provided in all new recreational vehicle parks where individual sewer hookups are not available for all sites. Recreational vehicle parks with more than 100 sites shall have one sanitary waste station for every 100 sites when individual sewer connections are not provided for all sites.
- b. Sanitary waste stations that are not connected to central wastewater treatment or public sewer shall meet the design requirements for a septic system permit issued by the Pueblo County Department of Health and Environment. Sanitary waste stations draining to an impervious vault shall include a capacity alarm system as required for vaulted septic systems.

- c. The sanitary waste station shall be connected to the recreational vehicle park water supply and provide facilities for washing recreational vehicle waste holding tanks and for cleaning the general area of the sanitary waste station.

**(xiii) Refuse Disposal**

- a. The storage, collection, and disposal of refuse shall be performed so as to minimize accidents, fire hazards, air pollution, odors, insects, rodents, or other nuisance conditions.
- b. All trash collection areas shall be screened, and trash containers shall be wildlife proof.

**(xiv) Fire Safety**

- a. Fires will be permitted only in facilities that have been provided for such purposes or where open fires are allowed.
- b. Approved designated outdoor campfire locations, if provided, shall be in areas where they will not constitute fire hazards to vegetation, undergrowth, trees, recreational vehicles, camping units, and structures.
- c. Each recreational vehicle park shall have a written evacuation plan approved as part of an application submittal.

**(3) Marijuana Establishments<sup>164</sup>**

**(e) Industrial Uses**

**(1) Contractor's Yard<sup>165</sup>**

- (i) A contractor's yard in the LI, Light Industrial or HI, Heavy Industrial zone district may have on-site storage of materials and may have fabricating or assembling of a product made by the contractor as part of the construction work.
- (ii) Construction materials shall not be stored in an A1 or A2 zone district.
- (iii) Fabricating or assembling products in a contractor's yard in an A1 or A2 zone district shall be performed only within an enclosed building or structure.

---

<sup>164</sup> Proposed changes to the existing standards for marijuana-related uses will be informed by ongoing discussions with Pueblo County Staff.

<sup>165</sup> Modified from the existing definition of "Contractor's yard". Additional requirements for parking and screening large vehicles will be added as part of Module 2: Development Standards.

**(2) Natural Deposits Extraction<sup>166</sup>**

- (i) The special use permit application for mining operation and processing shall include a copy of the deed for the surface owner and provide the identity of subsurface owners. A copy of the reclamation bond required by the State of Colorado must be submitted prior to the start of operations.
- (ii) If the operation is within 1,500 feet of a residential structure or a commercial structure that provides sleeping accommodation (e.g., hotel), excavation, screening, or crushing shall not occur outside the hours of 6:00 a.m.-7:00 p.m. The 1,500 feet shall be measured from the special use permit boundary to the wall of the closest residential or commercial structure.
- (iii) The operator shall not excavate, store overburden, or construct a dike in such a manner as to increase any drainage or flooding onto property not owned by the operator or permit holder or cause any damage to public property or facilities.
- (iv) Structures or buildings on the property of the permitted gravel mining operation must conform to all County zoning standards and building codes. Construction trailers and temporary buildings shall be included in the special use permit application and depicted in the mining plan.
- (v) The mine operator is required to apply for an Access Permit through the Department of Engineering and Public Works and to comply with all conditions of the Access Permit.
- (vi) The operator shall designate haul routes on Pueblo County roads for a specific mining operation application. It is preferred that a Haul Route adhere to the following:
  - a. Truck haulage and traffic routes shall be designed to the maximum extent feasible to avoid residential areas, commercial areas, schools and other civic buildings, municipalities, and already congested locations. Alternative routes shall be identified.
  - b. The applicant shall prevent loss of loads and fugitive dust emissions during transit and shall be responsible to ensure that haul routes are maintained in accordance with dust-suppressant methods required by applicable state or federal agency.

---

<sup>166</sup> Existing regulations from Chapter 17.105: Mineral Resource Extraction Regulations.

(vii) The operator of the mining operation is required to control dust at the mining and processing site so that adjacent and downwind-developed land is not impacted.

(viii) A mining operation with reclamation plans that provide for a permanent lake, water storage, wetlands, and/or any creation of wildlife attractants shall be coordinated with the Airport Sponsor, the Planning Commission, the FAA and FAA's technical representative, the Colorado Division of Parks and Wildlife, the U.S. Fish & Wildlife Service, and the U.S. Army Corps of Engineers as part of the permit application.

**(3) Hazardous Storage**

Land application of domestic septage is limited to parcels that are 35 acres or larger and subject to the requirements of Federal Part 503 Rule, "The Standards for the Use or Disposal of Sewage Sludge" (40 CFR, Part 503), as amended.

**(4) Telecommunication Tower(s)<sup>167</sup>**

This subsection establishes standards and submission requirements for new telecommunication towers and co-location requests within those zone districts where the same is expressly permitted in accordance with this UDC.

- (i) To the extent feasible, the use of "stealth technology" should be used to mitigate and/or camouflage visual impacts. Stealth technology consists of, but is not limited to, the use of grain bins, silos or elevators, church steeples, water towers, clock towers, bell towers, false penthouses, or other similar "mimic" structures. "Mimic" structures shall have a contextual relationship to the adjacent area.
- (ii) The minimum lot area of any parcel of land proposed for the establishment of a telecommunication tower shall be at least one-half acre in size. There shall be no minimum size requirements for the leased parcel.
- (iii) All telecommunication towers shall be setback, at a minimum, the overall height of the tower from any property line. All measurements shall be from the leading edge of the tower structure. Setbacks for guyed wire bases will be the same as required for an accessory structure in the zone district in which the tower is located.

---

<sup>167</sup> Existing regulations from Section 17.120.250 with updates for clarity.

- (iv) There is no minimum setback standard for related accessory buildings and support facilities provided the construction/placement of the buildings and support facilities are contained within the designated fenced leased parcel.
- (v) The height of any telecommunication tower shall be governed by the height limit imposed in the Special Use Permit.
- (vi) Any telecommunication tower that is proposed to be established with an overall height of 150 feet or greater shall be required to file with the Federal Aviation Administration Form 7460-1 Notice of Proposed Construction or Alteration for the proposed tower.
- (vii) Lighting of telecommunication towers shall only be permitted as required by the Federal Aviation Administration and shall be governed by the Federal Aviation Administration Obstruction Marking & Lighting Advisory Circular (AC 70-7460-1K).
- (viii) The boundary of the leased parcel surrounding the telecommunication towers and its related accessory buildings and support facilities shall be fenced with a minimum six-foot security-type fencing.
- (ix) In an attempt to minimize the proliferation of telecommunication towers throughout Pueblo County, all possibilities of co-location on existing facilities (within a three-mile radius) must be exhausted prior to the submission of an application for the establishment of new telecommunication towers.
- (x) In addition, subject to review and analyses, all telecommunication towers shall be constructed and made available as to permit co-location of, at minimum, two additional, functionally equivalent service providers.
- (xi) All telecommunication towers must meet or exceed current standards and regulations of the Federal Aviation Administration, the Federal Communications Commission, and/or any other agency of state or federal government with the authority to regulate towers and antennas.
- (xii) Applications for the construction of any new telecommunication towers shall be by special use permit. The co-location or installation of additional antennas/dish receivers, transmitting equipment and/or related accessory buildings and support facilities for other service providers on existing facilities shall be by zoning compliance review.

(xiii) The forms and associated submittal checklists for the previously mentioned applications will be provided by the Department of Planning and Development and assessed an application fee as adopted by the Pueblo Board of County Commissioners by resolution.

**(5) Utilities<sup>168</sup>**

- (i) Distribution, transmission, and service lines for service to properties exclusively within Pueblo County requiring simple easements or installation in public rights-of-way or installed under franchise agreement with City and/or County and usual customer facilities for service to properties exclusively within Pueblo County shall not be subject to zoning requirements.
- (ii) These regulations shall in no way prohibit the installation of temporary facilities in cases of emergency conditions, provided within a reasonable period of time application is made for the installation of permanent facilities.

**(6) Composting Facility<sup>169</sup>**

- (i) The minimum required lot size for a composting facility shall be 35 acres.

---

**17.03.040 Accessory Uses and Structures**

**(a) General Standards for Accessory Uses<sup>170</sup>**

Accessory uses incidental to a principal use are permitted provided:

- (1) The use is incidental and customary to and commonly associated with the principal use or is a permitted home occupation;
- (2) The use is not injurious, noxious, or offensive to the neighborhood;
- (3) In Residential Zone Districts, the use is operated by the same persons who operate or inhabit the principal use or structure.

**(b) General Standards for Accessory Structures<sup>171</sup>**

Accessory structures incidental to a principal use or principal structure are permitted provided:

- (1) Accessory structures may be built anywhere that a principal building may be built with the following exceptions.

---

<sup>168</sup> Existing regulations from Section 17.120.130: Public Utilities.

<sup>169</sup> From existing definition of "Composting Facility".

<sup>170</sup> Existing regulations from Section 17.120.010.

I'm not sure if this restriction applies only to large commercial composting operations. Composting is becoming more common on many small farms and mini-farms that would not meet the 35 acre minimum. There might be some wording that would allow composting (based on output) that would allow composting on smaller acreages.

*Agree: 0, Disagree: 0*

I'm guessing that the smaller acreages would just need a special use permit, if I understand an earlier table correctly.

- (i) The accessory structure may occupy up to 30 percent of a required rear yard and/or the back 50 percent of a required side yard, and
  - (ii) Accessory buildings in the required side or rear yard shall be at least five feet from the property line.
- (2) Except on farms in the A1, A2, and A3 zone districts, accessory buildings in required rear or side yards may not be built within five feet of a rear or side lot line, unless the wall facing the rear or side lot lines is fire-rated and contains no openings, has no roof overhang, and the roof does not discharge water on adjacent parcels.
- (3) Mobile home or trailer home structures, truck trailers, or railroad cars shall not be used as accessory buildings except in Agricultural districts on parcels of at least eight acres in size. Where allowed, the structure shall be set back at least 200 feet from any property line. Nothing in this paragraph shall prohibit nor limit contractor's and business' use of licensed, operable truck trailers.

**(c) Accessory Outdoor Commercial Storage<sup>172</sup>**

Accessory outdoor commercial storage areas shall meet the following standards. Where the use or structure cannot meet all the following requirements, administrative review is required.

- (1) Accessory outdoor commercial storage areas shall be effectively screened from any adjacent property zoned to allow residential uses (See Section <> [Landscaping]).
- (2) Accessory outdoor commercial storage areas cannot cover an area larger than 50 percent of the total area of the site.
- (3) Accessory outdoor commercial storage areas shall be maintained in an orderly manner with no junk, trash, or debris.
- (4) Adequate emergency access lanes shall be maintained around and through the storage area.
- (5) Accessory outdoor commercial storage shall be outside any parking, traffic circulation, right-of-way, and/or landscaping area that serves the site.

**(d) Accessory Vehicle Storage<sup>173</sup>**

- (1) This accessory use does not include junked vehicles and vehicles required to be licensed by the Colorado Public Utilities Commission.

---

<sup>172</sup> New.

<sup>173</sup> New.

- (2) Stored vehicles shall be located on the lot in a way that will not cause traffic sight obstructions or safety hazards.

**(e) Home Occupations<sup>174</sup>**

- (1) The intent of this Section is to allow certain business uses in association with dwellings where it is known those business uses will not alter the character or appearance of the residential or agricultural environment.
- (2) All home occupations shall comply with the following requirements:
  - (i) Home occupations shall be clearly incidental and subordinate to the residential land use established on the lot or parcel being utilized. Home occupations are prohibited where there is no principal dwelling unit.
  - (ii) Home occupation activities shall take place within a principal dwelling unit, accessory building, or private recreation area (e.g., swimming pool, tennis court, and riding arena). Private recreation areas may only be used when conducting a home occupation clearly related to the recreation area being used.
  - (iii) The number of employees involved with a home occupation shall be limited to the residents of the principal dwelling unit plus one additional nonresident employee. Any visit by additional off-site employees shall be considered the same as a "client" visit and must comply with these performance standards (See subsection (vi)).
  - (iv) No client shall be received between the hours of 8:00 p.m. and 8:00 a.m.
  - (v) The number of clients that can visit the dwelling is limited to one client per hour. For the purposes of this section, a client shall be defined as an individual, or group of not more than four adults, visiting a home occupation in the same vehicle at the same time.
  - (vi) On-site display and sale of goods/products is prohibited, unless the display and sale are typical of and incidental to a home occupation. Any on-site sales shall not generate more traffic than otherwise permitted by this section. An on-site purchaser/buyer shall count the same as a "client." Goods or products on display shall not be visible from any property boundary or road right-of-way.
  - (vii) Vehicles related to the operation of a home occupation shall be restricted to residential accessory vehicle types.

---

<sup>174</sup> Existing regulations from Section 17.120.030: Home occupations.

- (viii) Deliveries other than standard parcel services are prohibited when associated with a home occupation.
  - (ix) One one-square foot sign is permitted.
  - (x) The address of a home occupation shall not be listed in phone books, newspapers, or other circulated publications or in television ads, radio ads, on the Internet, etc.
  - (xi) No materials or goods associated with a home occupation shall be stored in a manner that is visible from any property line or public right-of-way.
  - (xii) No equipment or activity shall be used in a home occupation that creates noise, vibration, glare, fumes, odor or electrical interference detectable from beyond the subject property boundaries. Noise levels shall not exceed those levels specified as permissible for residential zones in CRS 25-12-103.
  - (xiii) No home occupation shall be detrimental to the public health, safety or welfare. Home occupations shall not involve the use of materials that require a permit/license from the Colorado Department of Public Health and Environment (CDPHE), the U.S. Environmental Protection Agency (EPA), the Federal Bureau of Alcohol, Tobacco, and Firearms (ATF), or any other similar regulatory body. This prohibits home occupations that involve hazardous materials. Home occupations requiring a permit/license from a regulatory body which do not involve the use of hazardous materials may be permissible, provided the occupation is in compliance with all applicable Federal, State, and local regulations.
- (3) Upon the receipt of a complaint, an employee of Pueblo County may request to enter a structure housing a home occupation to determine whether or not the home occupation complies with the conditions of this section.
- (4) Home occupations shall comply with health codes, building codes, and all other applicable local, State and Federal regulations.

**(5) Limited Use Home Occupations**

- (i) Training animals in association with a home occupation must comply with all other standards of this UDC and shall not be permitted on parcel of land with a lot area that is less than five acres.
- (ii) "Merchandise parties" (i.e., Tupperware, Avon, Mary Kay, etc.) held for the purpose of soliciting sales shall be limited to no more than four parties per year from the site of the home occupation.

**(6) Prohibited Home Occupations**

- (i) Any occupation requiring the use of hazardous materials of a type or quantity not normally associated with residential uses;
- (ii) Motor vehicle repair and auto body work;
- (iii) Machine shops;
- (iv) Equipment and machinery rental;
- (v) Boat repair.

**(f) Outdoor Display and Sales<sup>175</sup>**

- (1) The accessory outdoor display area shall be outside any parking, traffic circulation, right-of-way and/or landscaping area that serves the site.
- (2) The accessory outdoor display area cannot be any larger than 50 percent of the total lot area.
- (3) Accessory outdoor display areas shall be effectively screened from any adjacent property zoned to allow residential uses (See Section < > [Landscaping])
- (4) Accessory outdoor display and sales items are displayed outdoors only when the principal use is open for business.

**(g) Primitive Camping<sup>176</sup>**

The following regulations apply to non-commercial camping on private property. Private covenants running with land may restrict or prohibit primitive camping as defined in this UDC; it is the responsibility of the property owner, not the County or any employee or agent thereof, to ensure compliance with restrictive covenants.

- (1) Overnight camping shall be allowed on residential property with access to a private yard. A permanent residential structure must be constructed prior to camping on the property. 
- (2) Property owners shall be allowed to camp on their property as long as there is no commercial activity associated with the camping.
- (3) Overnight camping stays shall be limited to 10 consecutive days.
- (4) Recreational vehicles may be used for camping on private property that is larger than half an acre in size.

*Type: Question*

*Agree: 0, Disagree: 0*

- 1) States you must have a structure on residential property.
- 2) Property owners shall be allowed to camp....

Is this allowing a property owner in a place such as Hatchet Ranch, to camp without a structure? Are those property's considered residential?

**(h) Short-Term Rental<sup>177</sup>**

**(1) Purpose**

The purpose of this regulation is to allow short-term rentals in certain zone districts in the County with a permit and with regulation to assist in protecting the health, safety, and welfare of property owners, neighbors, and occupants.

**(2) Applicability**

These regulations apply to all uses meeting the definition of short-term rental. Private covenants running with land may restrict or prohibit short-term rentals; it is the responsibility of the property owner, not the County or any employee or agent thereof, to ensure compliance with restrictive covenants.

**(3) Permit Required**

No person or entity shall sell lodging to a temporary occupant(s) of a dwelling unit for fewer than 28 consecutive days without first having obtained a short-term rental permit issued by the County and complying with any conditions or restrictions thereof. A short-term rental permit is valid for the life of the short-term rental use, subject to annual re-registration in a form prescribed by the County. A separate short-term rental permit is required for each short-term rental unit. A short-term rental permit may be issued only to the owner of the property used for short-term rental. A short-term rental permit may be issued by the Director upon finding that the requirements of this subsection (h) are met. A permit may contain conditions and restrictions.

**(4) Occupancy**

- (i) The number of occupants at any given time in a short-term rental unit shall not exceed two persons per bedroom plus two additional renters, including the operator, except where the Director determines that the size, configuration and/or structural features of the unit allow greater or lesser occupancy.
- (ii) The permit shall specify the maximum occupancy of the unit.

---

<sup>177</sup> New.

**(5) Designated Local Responsible Party**

- (i) The property owner shall designate one or more local person(s) who will be permanently available and responsible for immediately responding to complaints about or violations of law or of permit terms. Local as used herein means having a permanent address within a 20-mile radius from the short-term rental property and a 24-hour contact phone number.
- (ii) The designated local responsible party may be the owner of the property if they meet the local criteria.
- (iii) The designated local responsible party must be authorized by the property owner to permit inspection of the premises by the County and/or its agent or employee to ensure compliance with applicable fire and building codes and with the requirements for and/or of the short-term rental permit.

**(6) General Requirements**

- (7) The owner of a dwelling used or to be used as a short-term rental shall:
  - (i) Obtain a tax license from the County and comply with all applicable local, state, and federal taxes;
  - (ii) Demonstrate and certify that the unit is a structure permitted by the Pueblo Regional Building Department as a residential structure and contains the following on the premises at all times:
    - a. A smoke detector in good working order;
    - b. A carbon monoxide detector in good working order;
    - c. Adequate and functional building egress from each sleeping room in the unit;
    - d. Posted notice providing in detail the following information in a highly visible location and readily accessible form:
      - 1. Location of building exits and fire extinguishers;
      - 2. 24-hour emergency contact information;
      - 3. Parking areas and parking restrictions, including a notice that parking on lawns is not allowed;
      - 4. Noise restrictions and quiet hours;
      - 5. Trash disposal instructions including trash pickup location and schedule;

6. Maximum occupancy restrictions; and
  7. County permit number.
- (iii) Certify all units maintain a fire extinguisher in good working order;
  - (iv) Permit inspection of the premises by the County or its agent or employee during the pendency of the permit application, and thereafter upon reasonable notice;
  - (v) Provide with its application a site plan that meets County requirements [,<>Site Plan Requirements];
  - (vi) If the short-term rental unit is accessed by a shared driveway, provide the County with a copy of a written instrument authorizing use of the driveway for short-term rental purposes;
  - (vii) Provide the name, address and phone number of the designated local responsible party to the County, and update such information with the County whenever it changes;
  - (viii) Register annually with the County, certifying that the permit terms and requirements are still being met and updating any material changes to the unit or property;

**(8) Revocation, Suspension, and Appeal**

- (i) A short-term rental permit may be suspended or revoked for any of the following reasons:
  - a. The owner or designated responsible party has failed to comply with a requirement of this subsection (h).
  - b. The owner or designated responsible party has failed to comply with a condition of or restriction set forth in the short-term rental permit.
  - c. The owner has failed to collect or remit lodging taxes or otherwise comply with local, State and/or federal tax requirements.
  - d. Materially false or misleading information has been provided to the County by the applicant, owner or designated responsible party on an application.
  - e. The County has received excessive and substantial complaints by neighbors or affected persons that were not adequately and timely addressed by the owner or designated responsible party.

- (ii) Notice of revocation shall be provided to the owner, who shall then be given an opportunity to respond within 10 days. The Director will issue any decision to revoke or suspend a permit within 10 days of the response date.
- (iii) Any aggrieved person may appeal the issuance, denial, suspension, or revocation of a short-term rental permit to the Zoning Board of Appeals within 10 days of the issuance of the decision.

**(i) Urban Agriculture<sup>178</sup>**

Where Urban Agriculture is listed as an accessory use and where Agricultural Production is listed as a use requiring a special use permit in the RR, SR1, SR2, LR, HR, MN, and MC zone districts, the following use-specific standards apply.

**(1) Apiaries**

- (i) All bee colonies shall be kept in removable frame hives, which shall be kept in sound and usable condition.
- (ii) Each beekeeper shall ensure that a convenient source of water is available at all times to the bees.
- (iii) There shall be no outdoor storage of any beekeeping or hive materials that are not being used as part of a hive.
- (iv) In any instance in which a colony exhibits unusually aggressive characteristics by stinging or attempting to sting without due provocation, it shall be the duty of the beekeeper to requeen the colony.
- (v) No more than the following number of colonies may be kept on any lot, based upon the size or configuration of the lot on which the apiary is situated:
  - a. On lots of 15,000 square feet or less — four colonies are allowed.
  - b. On lots of more than 15,000 square feet — two additional colonies are allowed for each 7,500 square feet in excess of 15,000 square feet.

---

<sup>178</sup> New.

- c. For each two colonies allowed under the colony densities, subsection (a) above, there may be maintained upon the same lot eight temporary nucleus colonies. The hive structure shall not exceed one standard nine and five-eighths inch depth ten frame hive body with no honey super(s) attached as required from time to time for management of swarms and for rearing of queens. Each such temporary nucleus colony shall be disposed of or combined with an authorized colony within 30 days after the date it is acquired.
- (vi) An apiary consisting of more than 75 colonies shall maintain a distance of at least 200 feet from any property line.

**(2) Poultry**

- (i) Properties with an area of less than one acre may keep up to 12 hens. Properties that are one acre or larger in area may keep up to 20 hens. Roosters shall be prohibited on all properties.
- (ii) A predator-resistant enclosure must be provided. The enclosure shall have a minimum of six square feet of living space for each animal and shall be secure, roofed, and well ventilated. The total size of a single enclosure shall be subject to the accessory building standards of the underlying zone district.
- (iii) Hens shall be kept in the enclosure or in a yard with a minimum four-foot high, fully enclosing fence at all times.
- (iv) An enclosure or fenced area shall not be located within the front setback, or two feet in front of the primary structure, or closer to any property lines than the accessory structure setbacks for the applicable zone district.

**17.03.050 Temporary Uses and Structures**

---

**(a) Recreational Vehicle as Temporary Housing<sup>179</sup>**

In the event that a household will be displaced from an existing dwelling unit due to construction activities, a recreational vehicle (RV) may be used as a form of temporary housing, subject to the following standards:

- (1) Only one RV allowed per principal dwelling.

---

<sup>179</sup> New. A process for a Temporary Use Permit, which is intended to be an administrative review process, will be defined in Module 3.

- (2) The RV shall have current licensing and registration and be in an operable road worthy condition.
- (3) The RV must be located on private property and not parked on county right-of-way.
- (4) The RV shall not be used as a short-term rental.
- (5) Use of a recreational vehicle as temporary housing requires a Temporary Use Permit. As part of the Temporary Use Permit application, the applicant must provide:
  - (i) Evidence of an active building permit for work on the principal dwelling unit.
  - (ii) A site plan depicting how the RV will be connected to sewer and water. If the RV is not utilizing sewer and water connections, a plan for disposing of sewage and water at an RV dump station must be provided.
- (6) Temporary occupancy of a recreational vehicle is limited to six months, at which time the applicant may apply for a renewal of the existing temporary use permit, subject to review and approval by the Director.

### **17.03.060 Special Event Standards<sup>180</sup>**

---

This Section is applicable to all zone districts in the unincorporated area of Pueblo County. The purpose and intent of this Section is to provide for the temporary use of land for special events by establishing requirements and regulations.

- (1) A special event is defined as a temporary commercial, promotional, or festive activity, at a specific location that is open to the public and is planned for or expected to attract a large assembly of persons.
- (2) A Special Event Permit is not required for the following:
  - (i) Parades
  - (ii) Wedding and funeral ceremonies
  - (iii) Events or gatherings that attract or are intended to attract less than 100 people held on one day. Multiple day events and events that include primitive camping are subject to a Special Event Permit regardless of the number of attendees.
  - (iv) Personal events that do not include events where admission is paid and/or there is financial gain from the event.

---

<sup>180</sup> Special event standards have been modified from the existing regulations in Section 17.120.270 based on staff input. Information relating to special event permits will be added to Module 3: Administration and Procedures.

- (v) Election activities and political rallies
  - (vi) Temporary farming and harvest related events (e.g., agritourism, farm stands, corn mazes, pumpkin patches and similar) which are held on a working farm
  - (vii) Gatherings at any regularly established, permanent place of assembly provided that:
    - a. Such place is being used for its established and normal use allowed by zoning;
    - b. Attendance does not exceed the maximum seating capacity or occupancy rating of the structure or place where the gathering is held; and
    - c. The gathering complies with all other county ordinances, resolutions, and regulations.
- (3) Special Events that are not exempted under 17.03.060(2) shall require review and approval of a Special Event Permit as described in Section <>.

## Chapter 17.07 Measurements & Definitions

### 17.07.010 Rules of Construction<sup>181</sup>

---

#### (a) Meanings and Intent

Words and phrases shall be read in context and construed according to the rules of grammar and common usage. Words and phrases that have acquired a technical or particular meaning, whether by definition under the definitions section of this Code, by legislative declaration or otherwise, shall be construed accordingly. The particular controls the general.

#### (b) Mandatory and Discretionary Terms

Mandatory requirements use the words "shall," "must" or "will" and are sometimes labeled Standards. Recommendations use the words "may" or "should" and are sometimes labeled Guidelines.

#### (c) Tenses, Plurals, and Gender

Words used in the present tense include the future, unless the context clearly indicates otherwise. Words indicating a specific gender apply to all persons and things unless the context clearly indicates otherwise.

#### (d) Conjunctions

Unless the context clearly indicates otherwise, the word "and" indicates all connected words or provisions apply. The word "or" indicates connected words or provisions may apply singly or in any combination. The words "either ... or" indicate the connected words or provisions apply singly but not in combination.

#### (e) Computation of Time

A reference to days is to calendar days unless otherwise specified in this Code or state statute. If a deadline falls on a weekend or county holiday, the deadline extends to the next working day. When computing a period of days, the first day is excluded and the last day is included. If the last day falls on a weekend or county holiday, the last day is the next working day.

---

<sup>181</sup> New.

**(f) Delegation of Authority**

Whenever a provision requires the head of a department or another officer or employee of the County to perform an act or duty, that provision shall be construed as authorizing the department head or officer to delegate that responsibility to others.

**(g) Headings, Illustrations, and Text**

In the event of a conflict or inconsistency between the text of this Code and any heading, caption, figure, illustration, table, or map, the text shall control. Section and subsection headings are for convenience only. They do not govern, limit, or modify the scope, meaning or intent of this Code.

**17.07.020 Rules of Measurement**

---

**(a) Purpose<sup>182</sup>**

This section provides uniform methods of measurement for interpretation and enforcement of the lot and building standards in this UDC.

**(b) Density<sup>183</sup>**

Density shall be calculated by the number of dwelling units per acre within a proposed development site, excluding public and private streets and rights-of-way, natural bodies of water, and public access easements that restrict the surface use of the property.

- (1) The density calculation shall be adjusted for conservation subdivisions as provided in Section < > [Land Conservation Standards].

**(c) Lot Dimensions<sup>184</sup>**

- (1) New lots created, developed, used, or occupied shall meet the minimum lot dimensions for the applicable zone district unless otherwise established in this UDC.
- (2) No land needed to comply with minimum lot dimensions or other standards in this UDC shall be sold or leased away from a lot.
- (3) Minimum lot area, for lots created by the land division process, may not include any portion of an adjacent road.
- (4) Lot width is measured at the required front building setback line, or in the case of an irregularly shaped lot, the front building line.

---

<sup>182</sup> New.

<sup>183</sup> New.

<sup>184</sup> New.

**(d) Setbacks****(1) Setback Measurement<sup>185</sup>**

Setbacks shall be measured from the lot line to any building or structure on the lot.

**(2) Setbacks for Attached Buildings<sup>186</sup>**

For buildings where multiple dwellings or businesses share a common wall, only the outside walls of the end units shall comply with applicable setback requirements.

**(3) Through parcel<sup>187</sup>**

On a through parcel, the front setback requirements of the district in which the parcel is located shall apply to both street frontages.

**(4) Corner parcel<sup>188</sup>**

On corner parcels, a required side setback with street frontage shall be at least 15 feet wide, and the other setback requirements shall be the same as for other parcels in the same zone district.

**(5) Front Setbacks for Developed Areas<sup>189</sup>**

Except as provided in Section 17.02.040(d), Setback Projections and Encroachments, where three or more parcels comprising more than 50 percent of a single street frontage of a block are improved with buildings at the time of passage of this UDC, every building hereafter erected shall provide a front yard of not less than the average depth of the front yards of existing buildings, or the required front yards of existing buildings, or the required front setback, whichever is less.

**(e) Building Coverage<sup>190</sup>**

That portion of the parcel shielded from the sky by building and/or structures, as measured along the outside wall at ground level.

**(f) Building Height<sup>191</sup>**

Generally, the height of a building or structure shall be measured from the established street grade to the highest point of the coping of a flat roof, or to the center height

between the eaves and ridge for pitched roofs. For buildings set back from the street line, the height of the building shall be measured from the average elevation of the finished grade along the front of the building, provided the distance from the street line is not less than the height of the finished grade above the established street grade.

### 17.07.030 Definitions

#### Comments

The majority of definitions provided in this section come from Section 17.04.040 of the County's current Code. Changes to existing definitions, as well as the addition of new definitions related to topics covered in Module 1, have been noted. Additional definitions will be added in conjunction with Modules 2 and 3 as necessary.

#### A

##### **Accessory Outdoor Commercial Storage<sup>192</sup>**

An outdoor area used for the long-term deposit (more than 48 hours) of any goods, material, merchandise, or vehicles as an accessory use to and associated with a principal use on the property.

##### **Accessory Vehicle Storage<sup>193</sup>**

The storage of vehicles on a lot outside of a structure such as a storage building or garage.

#### **Adult Uses**

Any facility used for an adult amusement or entertainment business. This includes an adult bookstore, adult photography studio, adult theater, adult movie arcade, adult restaurant, bar or nightclub, adult tanning salon and other adult businesses characterized by offering patrons activities or material depicting, exhibiting, describing, or relating to specified sexual activities or specified anatomical areas for observation, amusement, enjoyment, satisfaction, or gratification, whether for a fee or not. The uses contemplated by this definition customarily, although not always, offer adult amusement or entertainment activities or materials as a principal, significant or emphasized part of their enterprise and, customarily, although not always, exclude minors under 18.

<sup>192</sup> New.

<sup>193</sup> Replaces current definition for "Vehicle Storage."

**Aerospace Activity, Manufacturing, and Fabrication**

A use pertaining to the development, production, maintenance and support of aircraft and spacecraft, including but not limited to, research and development, testing and manufacturing of aircraft and spacecraft components and systems, simulator, and ground support equipment; and the maintenance, repair and overhaul of aircraft and spacecraft systems.

**Agricultural and Animal Uses<sup>194</sup>**

Uses in this category include limited, commercially oriented agricultural activities, greenhouses, nurseries, and facilities for selling agricultural products. This category also includes animal-related uses such as the boarding and care of animals on a commercial basis. Accessory uses may include confinement facilities for animals, parking, and storage areas.

**Agricultural Implement, Sale and Repair<sup>195</sup>**

A commercial enterprise for the repair of equipment normally or routinely used for agricultural uses, and related parts, tools, and accessories. This use includes sale of associated materials.

**Agricultural Processing<sup>196</sup>**

The processing and/or packaging of agricultural products, excluding the processing of fish, meat, or game. Examples include but are not limited to the making of alfalfa pellets, herbal products, food products, wreaths, woolen products, cheese, and candles. Agricultural processing may include the sales of agricultural products grown on the site or agricultural products produced on the site.

**Agricultural Production**

Outdoor farming, including plowing, tillage, cropping, keeping of animals, grazing, livestock farming and similar uses; seeding, cultivating/harvesting for the production of food and fiber products (excluding commercial logging and timber harvesting). Agricultural Production includes horticulture, silviculture, viticulture, aviculture, aquaculture, apiculture, livestock grazing, the raising of small animals and poultry, domestic livestock farming, dairying, and animal husbandry and animal sales yards. This use excludes marijuana cultivation.

<sup>196</sup> New.

**Agricultural Tourism<sup>197</sup>**

Activities conducted on a parcel with a primary agricultural use and offered to the public for the purpose of recreation, education, or active tourism related involvement in the agricultural use. These activities shall be incidental to the primary agricultural use on the site or related to natural resources present on the property. This term includes guest ranches, site tours, hayrides, corn mazes, classes related to agricultural products or skills, picnic and party facilities offered in conjunction with the above. Agricultural tourism does not include accommodation uses or retail sales.

**Agriculture**

See "Farming" or "Ranching."

**Airport or Heliport**

A place on land or water where aircraft may land to discharge or receive cargo and passengers, make repairs, or take on fuel.

**Alcohol Sales**

The retail sale of alcoholic beverages for off-site consumption.

**Alley**

A minor way which is used primarily for vehicular service access to the back or the side of properties otherwise abutting on a street.

**Alter**

Any structural change in the supporting or load bearing members of a building, such as bearing walls, columns, beams, girders, or floor joists.

**Antique**

A fine art object, artifact, implement or household furnishing, over fifty years old, which is characteristic of a specified area or country, or which has other historical and artistic significance.

**Appropriate**

Belonging peculiarly, or especially suitable.

---

<sup>197</sup> New.

### **Aquaponics**

A system that combines hydroponics (cultivating plants in water) with aquaculture (raising of fish and other aquatic animals) in a symbiotic relationship.

### **Assembly**

The joining together of completely fabricated parts to create a product.

### **Assembly, Religious or Secular<sup>198</sup>**

Assembly uses include facilities owned or operated by associations, corporations, or other persons for social, educational, worship, or recreational purposes primarily for members and their guests. Accessory uses may include offices, meeting areas, food preparation areas, and concessions.

### **Associations, Clubs, and Lodges<sup>199</sup>**

A building or rooms and accessory buildings and grounds occupied by a nonprofit association of persons for the promotion of some common objective such as, but not limited to, literature, science, politics, recreation and good fellowship, meeting periodically, limited to members, with no more than one-third of the gross floor area occupied by the use used for residential occupancy.

### **Atmospheric Light Pollution**

General sky glow caused by the scattering of artificial light in the atmosphere and resulting in decreased ability to see and enjoy the natural night sky.

### **Auction Hall<sup>200</sup>**

A place where objects of art, furniture, and other goods are offered for sale to persons who bid on the object in competition with each other.

### **Autonomous Vehicle Test Site**

A proving ground for the safe testing and operations of automated vehicle technologies.

### **Aviary**

A place for keeping birds confined for the purposes of breeding, raising, or selling.

---

<sup>198</sup> New.

<sup>199</sup> Replaced "Club".

<sup>200</sup> New.

**B**

**Bar or Tavern<sup>201</sup>**

An establishment where the primary business is providing or dispensing by the drink for on-site consumption of fermented malt beverages and/or malt, special malt, vinous or spirituous liquors, in which the sale of food products such as sandwiches and light snacks is secondary, and where music, live entertainment and/or dancing may be provided.
